WORK EXPERIENCE

June 2024 – present *Medserv Africa*

Full Stack Engineer

- Cross-Functional Collaboration: Work with marketing, logistics, and operations teams to ensure tech delivery aligns with strategic goals and market expansion.
- New Product Integration: Integrate medical and pharmaceutical products into the platform with region-specific configurations.
- Digital Marketing & Creative: Support branding, content design, and campaign implementation with a tech-meets-creative approach.
- Security & Compliance: Implement secure access control, data protection measures, and authentication systems.
- IT Infrastructure & Networking: Provide infrastructure support, including cloud deployment, local networking, and system troubleshooting.
- Customer Onboarding & Technical Support: Lead the technical onboarding of healthcare providers, ensuring platform setup, training, and support are tailored for seamless adoption.
- ERP & Middleware Integration: Develop Django-based middleware for syncing Sales Order and customer data between CSV files and Odoo using XML-RPC.
- Database Design & Optimization: Architect and manage relational databases to ensure data accuracy, system performance, and scalability.
- Contract Management Dashboards: Designed and deployed interactive dashboards to track contract status, performance milestones, and renewal timelines—streamlining visibility and accountability across teams.
- Full-Stack Development: Build and maintain scalable web applications using Laravel, Tailwind CSS, JavaScript, and PHP to power Medserv's eCommerce and internal tools
